

Double Burner Wood Stove

Cooks two dishes at the same time

Design modified to transfer responsibility for stove assembly to local women, accentuating the empowering potential of clean cookstoves.

Only 8 kg in weight

Flexible pot rest fits multiple sizes of pots

Bottom and top are removable for easy and inexpensive maintenance

Prakti Quality
1 year warranty

Improves Health

With up to 80% of dangerous smoke and indoor air pollution reduced, the risk of health problems is dramatically reduced. Children and women are also less at risk from burns.

Saves Time

Less time is needed to collect or purchase fuel and build a fire.

Empowers Women

With their domestic burden dramatically reduced, women and young girls have a greater chance of acquiring education and gaining employment.

Saves Money

With up to 40% fuel savings, a family of 5 people saves 2 kg of wood per day. The cost of the stove is recovered within 6 months, and with di-annual maintenance, the stove has an expected lifetime of 5 years.

Made in India

Manufactured in Chennai with a high quality to cost ratio and a 1 year warranty.

Greens the Planet

Deforestation and as a result, soil erosion, climate change, and flooding are reduced.

Tested to Perfection

Tested for performance, acceptability, and durability by in-house cooks, end users and our professional testing unit, our stoves are responsive to the needs of targeted users.
